

Kitty Pal Pattern

To make an adorable kitty, cut the following:

Face—6" x 9". Using template, draw face with magic markers. Eyes and nose may be colored in.

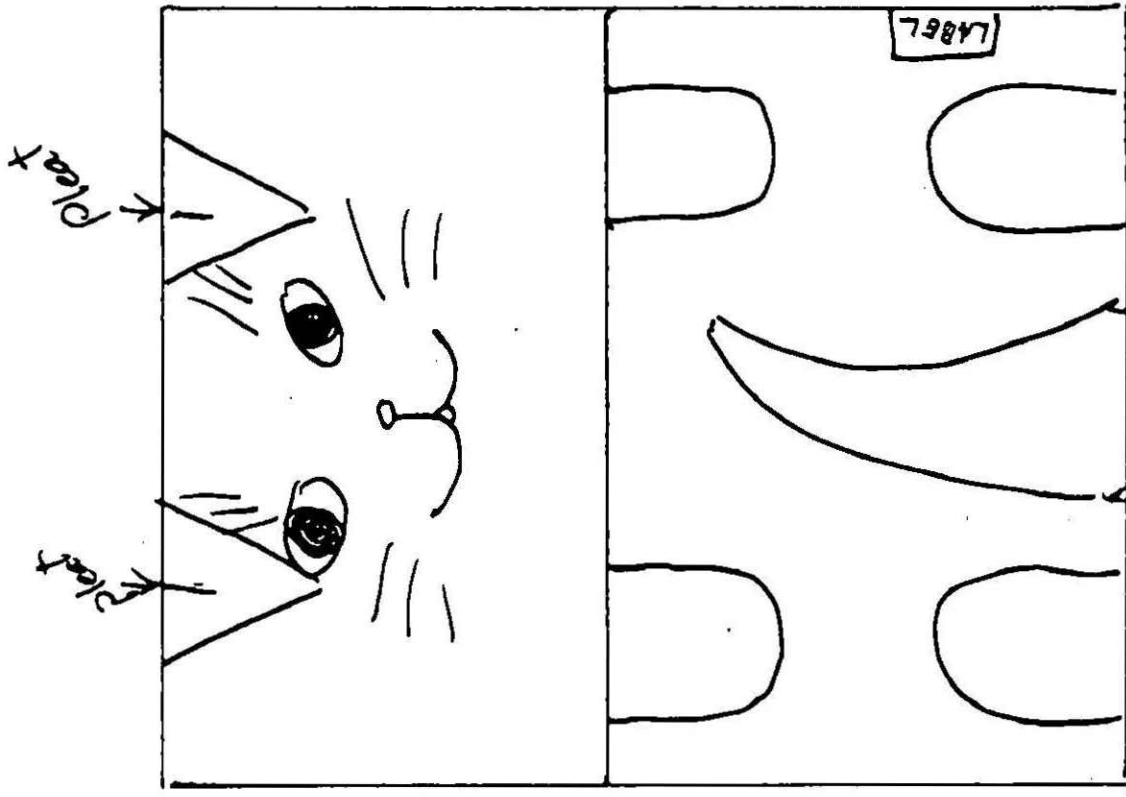

Front body—6 1/2" x 9"

Back body—9" x 12"

2 batting pieces 9" x 12"

Using attached patterns, cut 2 tail pieces. Stitch together with narrow seam, turn and stuff. Cut 8 paws, stitch together, turn and press. Cut 4 ears and 2 inner ears. Turn 1/8" on curved sides of inner ears and stitch to one ear piece, matching straight sides. Put right sides together of ears and stitch, turn and press.

Using placement diagram, stitch middle seam of front, inserting two paws as you sew. Press. Lay front piece on a batting piece. Put seams of tail together and place it on the front so it will curve up and away from the body when finished. Place label, back paws and ears on the front, making a small pleat in each ear. Stitch all these pieces to the front piece and batting using a narrow seam. Stitch back piece to batting using a very narrow seam. Put front and back right sides together and beginning at the edge of the tail, stitch around the sides, stopping at the other side of the tail. Turn, press, stuff, and stitch opening at the bottom.

Placement of parts
on front - Stick all the
way around near edge
